

Mad Science® Wessex

Covering schools across Dorset, Wiltshire and Hampshire

'Inspiring Scientists of the Future'

Mad Science®
YOUR TRUSTED PARTNER
FOR STEM EDUCATION

OUR MISSION

Is to ignite scientific curiosity and creativity in children on a scale that makes a difference.

WHY?

To provide children with an opportunity to develop important skills, such as teamwork and problem solving. Today's children will make up future workforces and be solving the problems of tomorrow.

HOW?

Mad Science Programmes are innovative, excite and captivate an audience of any size. Woven throughout ALL Mad Science events are the core principles of scientific method and enquiry based learning.

IN CLASS WORKSHOPS

STEM LABS THAT SUPPORT CLASSROOM LEARNING

Bring Scientific discovery to your classroom.

Mad Science workshops explore real Scientific concepts through hands-on experiments designed to spark curiosity, foster creativity and connect at year group level.

WIDE VARIETY OF TOPICS

Mad Science offers workshops that are fully aligned with **Department of Education STEM** guidelines for EYFS, KS1 and KS2. We build core 'Working Scientifically' skills, and help children explore the world by asking **How** and **Why** through creative, enquiry based learning.

Mad Science Whole School Show	Single Workshop Ideal for single or double cohorts	Science Morning 3 x 40minute workshops	5 Workshops Ideal for a First School Science Day	Whole School Assembly and 7 Workshops
£255	£190	£420	£625	£920

- Additional workshops can be added to the whole school bundle for just £105. Contact us for your bespoke package

Structured scientific programming with creative content and all materials included.

Trained reliable DBS checked instructors presenting our science workshops.

Educational, enriching programmes with a wide range of scientific topics available.

Most importantly we aim to ensure children have FUN as they learn.

From **Rocks** to **Rocket Science** we amaze children and create unforgettable experiences.

ASSEMBLIES AND SHOWS

LARGE SCALE STEM EXPERIENCES WITH SERIOUS WOW FACTOR

Kick Off British Science Week, launch a new STEM project or have an end of term celebration with HUGE WOW factor!

Our action packed assemblies are high energy, school wide science experiences that combine live demonstrations, audience participation, and exciting visual experiments to spark curiosity from Reception to Year 6.

WHY SCHOOLS CHOOSE THIS FORMAT

- Engages large groups creating a shared experience for children and adults.
- Builds enthusiasm for STEM across all year groups
- Perfect for science weeks or school celebrations

WHAT SCHOOLS CAN EXPECT

- Age appropriate animated, interactive and edutaining assembly.
- Safe controlled experiments led by a fully trained Mad Scientist.
- Options for First, Middle, Primary, Infant and Junior schools.

Want to keep the momentum going?

Ask us about our **after-school science club programmes**, designed to spark long-term curiosity and practical investigation.

The children were **fascinated** to watch you bring science to life through your series of **engaging** and **memorable** experiments.

TESTIMONIALS

'Thank you so much for such **fabulous** Mad Science Assemblies. The pupils (and staff!) **hugely enjoyed** them! Such great **fun** and so **informative**.'

Corpus Christi Catholic Academy
Hampshire

'Thankyou for your great workshops, the **whole school** had a **great time**!'
Wyndham Park Infants' School
Wiltshire

'Year 4, had the **best time**, it is safe to say our Skills Week is certainly going off with a bang.'
Sandroyd School, Wiltshire

'Feedback from children and parents has been **incredible**'
St John's First, Dorset

'The children all had the **absolute best time**. It was just the perfect way to kick-start the week. Parents have also commented on how much the children learnt from the workshops and how they all **went home buzzing**.'

Hayeswood First, Dorset

Bring the *buzz* to your school
